## INVITATION TO THE IPAM INTERNATIONAL CONFERENCE

Accelerating global climate resilience through robust  
adaptation metrics

September 29 - October 1, 2025 | Bouknadel (Rabat  
metropolitan area), Morocco

### A global milestone for adaptation

Hosted by the AAA Initiative Foundation – Secretariat of the International Platform on Adaptation Metrics (IPAM) – this high-level, 3-day conference will help define how climate adaptation progress is measured globally for the decade ahead.

### Why it matters

- Countdown to COP30 – Belém
- Discussion of IPAM's landmark Reference Paper by 20 experts from 15 countries
- Direct contribution to the Global Goal on Adaptation & UAE–Belém Work Programme
- Conference recommendations will be consolidated into a synthesis report shared with the COP30 Presidency

### What's on the agenda

**Five interactive workshops on:**

- Adaptation metrics and global climate goals
- Cross-scale and cross-sector dynamics
- Tools and capacities for effective implementation
- Experiences, best practices, and lessons learned
- Shaping the next generation of global adaptation metrics

### Why you should attend

- Influence global policy on adaptation metrics
- Gain early access to the Reference Paper and its findings
- Collaborate with peers from over 40 countries
- Network with policymakers, funders, and technical experts
- Enhance your institution's visibility through international media coverage

## Who will be there

### Over 120 participants, including:

- Climate adaptation researchers and practitioners
- Multilateral finance representatives
- UNFCCC delegates
- National adaptation focal points
- Development professionals and civil society organizations
