SOYBEAN SECTOR - SUPPORT THE SOYBEAN SECTOR IN BURKINA FASO THROUGH STRUCTURING AND FUNDING IT

**KEY TAKEAWAY**

**Description:** Development, in Burkina Faso, of a participative development model, creating structural links between farmers and processing facilities, with a view to assuring stable outlets for the former and supplies in optimal quantity and quality for the latter, according to a win-win logic.

**Specificity:** Interprofessional upstream-downstream setup gathering soybean producers and processors to develop and fund the sector in Burkina Faso

**Impact:** Output increase from 20,000t. to 100,000 t. in 3 years

**HOW IT WORKS**

- **Upstream-downstream relationship:** Contractualization of transactions with price/kg negotiation and better market information sharing
- **Participatory strategy:** Involvement of all players, with a view to launching two development funds
- **Training:** Raising farmers’ awareness on simple and optimal farming techniques

**BUDGET**

- **$3 M**

**IMPAIRTS**

- **Agricultural productivity**
  - **Objective:** 100,000 t. by 2019
  - **Objective set by the Burkinabé Minister of Agriculture Jacob Ouedraogo**
- **Climate change**
  - **Curb CC-induced productivity drop**
  - **Soil fertility increase thanks to nitrogen fixation within soils through soybean decomposition**
- **Sustainable dev. goals**
  - **Food & Nutrition**
  - **Protein intake (soybean = 40% of proteins) for feed and food**

**SCOPE**

- **BURKINA FASO**
- **+2,200 producers federated**

**PLAYERS**

- **RFIs**
  - **FONDAITON * AVRIL**
  - **SoilSud**
- **Partners**
  - **ECOFIN**

**NEXT STEPS**

- Launch of a fund for the development of soybean meals for animal feed on farms
- Launch of a second fund for the development of human food (tofu, soybean cheese, soybean milk, soybean skewers, sumbala …)

**IMPACTS BUDGET**

- **$3 M**
  - **+2,200 producers federated**

**LEVERS**

- **SOILS**
- **AGRICULTURAL WATER**
- **RISK MANAGEMENT**
- **FINANCING**

**IMPACTS**

- **Agricultural productivity**
  - **Objective:** 100,000 t. by 2019
  - **Objective set by the Burkinabé Minister of Agriculture Jacob Ouedraogo**
